VIA ELECTRONIC AND SURFACE MAIL, AS INDICATED

Dear Commissioners:

I am writing on behalf of Citizens for Responsible Energy (CRE) to endorse and second the comments and the request of the Sierra Club.

CRE is not a long-standing organization, and the procedures of the PSCW are relatively bewildering to it. They have just recently secured counsel.

I am myself much more familiar with PSCW proceedings, and I am investigating potential experts. The projected timeline is, nonetheless, bracing, to say the least.

We have conferred with some other interveners or potential interveners about areas of emphasis, and are seeking experts with all deliberate speed. I do not think that it will necessarily require 360 days from last June to complete this docket, but completing it in time for the Commission to make its decision within the initial 180 day time frame, while providing adequate due process to the parties, seems well-nigh impossible.

On behalf of CRE, therefore, I urge you to seek additional time for completion of the docket.

We are circulating this correspondence by electronic mail to those who signaled they would accept mail in that fashion. We will "snail mail" it to the rest of the parties as soon as we get hold of a list of parties.

Thank you for your attention to these comments and this case.

Very truly yours,

/s/

Frank Jablonski

c: Parties, in the manner indicated.
